See you on August 13th!

Bernie Whitebear
Founder

The Daybreak Star Indian Cultural Center is the home of United Indians of All Tribes. The building is an impressive example of modern architecture incorporating traditional cedar and many elements of the Northwest Native design. You're invited to view the Native artwork on the second floor, including the display honoring Bernie Whitebear and the Filipino community in the Bernie Whitebear Room. Enjoy the many trails, take a walk to the reflecting pond, camp ground, and the sweat lodge while enjoying the amazing views of both Shilshole Bay and Elliott Bay.

Opening in 1977 after seven years of struggle and development, the Daybreak Star Indian Cultural Center owes its existence to Native American activists. In 1970 led by Bernie Whitebear, the Indian community and supporters staged a non-violent occupation of a portion of the land "by right of discovery" for the use of Indian people, after most of the Fort Lawton military base was declared surplus by the U.S. Department of Defense.

Daybreak Star serves as an event venue and conference center. It's popular for powwows, weddings and meetings. The center houses a multi-ethnic pre-school, Native Workforce staff, Ina Maka Family Services, Foster Care program, and the Sacred Circle Art Gallery. The center is the nucleus of Native American cultural activity in this region. For more information visit: Daybreak Star Center
